

GARY BUTLER

President and Chief Executive Officer
Automatic Data Processing, Inc.

Gary Butler currently serves as President and Chief Executive Officer for Automatic Data Processing, Inc. (ADP).

ADP, with nearly \$9 billion in revenues and about 570,000 clients globally, is one of the world's largest providers of business outsourcing solutions. ADP offers a wide range of HR, payroll, tax, and benefits administration solutions to companies of all types and sizes. ADP is also a leading provider of integrated computing solutions to auto, truck, motorcycle, marine, and recreational vehicle dealers throughout the world.

Mr. Butler has held a variety of positions of increasing responsibility since joining ADP in 1975. Prior to assuming his current role effective August 31, 2006, Mr. Butler served as President and Chief Operating Officer for eight years. Prior to that, he spent three years as the Group President for ADP's Employer Services Group and five years in the same capacity at ADP's Dealer Services Group. During his tenure, Mr. Butler has spearheaded ADP's company-wide mission to incorporate the Internet into its product and service set and has overseen its rapid global expansion into more than 90 countries on five continents.

Mr. Butler received his Bachelors of Industrial Engineering from the Georgia Institute of Technology and an M.B.A. from the University of Georgia. In addition to his work at ADP, Mr. Butler serves on the Boards of ADP and Liberty Mutual Group. He is a member of Business Roundtable and The Economic Club of New York. Mr. Butler is on the Board of the American Heart Association of Northern New Jersey and is active with the American Heart Association in Essex County, New Jersey.
