ADP NATIONAL EMPLOYMENT REPORT SHOWS UNITED STATES ADDED 128,000 PRIVATE SECTOR JOBS IN OCTOBER

ADP Report Offers Alternative Measure of Employment in the United States

ROSELAND, New Jersey – November 1, 2006 – Private sector employment increased by 128,000 in October, according to today’s *ADP National Employment Report*SM. The *ADP National Employment Report*, created by ADP® Employer Services, a division of Automatic Data Processing, Inc. (ADP), in partnership with Macroeconomic Advisers, LLC, is based on actual payroll data and measures the change in total nonfarm private employment each month.

“Since the *ADP National Employment Report* launched in May, our monthly count of private employment in the U.S. has received strong recognition for its innovative approach to improving employment estimates,” said Victor Saliterman, ADP Senior Vice President, Marketing. “We are pleased to see such a significant response and are confident our analysis will continue to provide excellent insight and guidance as an alternative data point when evaluating the employment situation.”

“Total nonfarm private employment grew 128,000 from September to October on a seasonally adjusted basis, according to the *ADP National Employment Report*,” said Joel Prakken, Chairman of Macroeconomic Advisers, LLC. “These findings suggest a modest re-acceleration of employment in October, following three months during which gains in private nonfarm employment averaged a slower 95,000 per month, according to the *ADP National Employment Report*.”

Estimates of total nonfarm private employment, seasonally adjusted

numbers in thousands, unless noted

Interpreting the Report

Providing real-time information about employment in the United States, the *ADP National Employment Report* is an additional assessment of American business and economic conditions. Findings are represented as both a *monthly employment level number* and a *change in monthly employment level number*. *Employment level* represents the total number of private sector jobs present in the U.S. economy at a single point in time. *Change in monthly employment level* represents the increase or decrease in the total nonfarm private employment level since the prior month.

To obtain additional information about the *ADP National Employment Report*, access the full schedule of future release dates, and subscribe to monthly e-mail alerts and RSS feeds, please visit www.ADPemploymentreport.com. The November 2006 *ADP National Employment Report* will be released on Wednesday, December 6, 2006 at 8:15 a.m. EST.

About the *ADP National Employment Report* SM

The *ADP National Employment Report*, sponsored by ADP[®], was developed and is maintained by Macroeconomic Advisers, LLC. It is a measure of employment based on a large, statistically significant, and anonymous subset of ADP payroll data that represents employees working in all 19 of the major North American Industrial Classification (NAICS) private industrial sectors. The data is collected for pay periods that include the week of the 12th of each month, and processed with statistical methodologies similar to

those used by the U.S. Bureau of Labor Statistics (the BLS) to compute employment from its monthly survey of establishments.

Empirical analysis performed by Macroeconomic Advisers suggests that the *ADP National Employment Report* is a better advance indicator of the monthly change in establishment employment than available consensus forecasts, and that it anticipates revisions to the BLS measure.

For a description of the underlying data and the statistical properties of the series, please see “*ADP National Employment Report: Development Methodology*” at <http://ADPEmploymentreport.com/methodology.aspx>.

About ADP

Automatic Data Processing, Inc. (NYSE: ADP), with nearly \$9 billion in revenues and more than 570,000 clients worldwide, is one of the largest providers of a broad range of premier, mission-critical, cost-effective transaction processing and information-based business solutions. About Macroeconomic Advisers, LLC

Macroeconomic Advisers, LLC (MA) has been the most trusted source for U.S. macroeconomic forecasts and commentary, monetary and fiscal policy analysis, and econometric modeling for over 20 years. MA has three primary service lines: (1) *Macroeconomic Modeling*. MA licenses its structural econometric model of the U.S. economy to firms who use it to produce their own macroeconomic forecasts; (2) *U.S. Economic Forecasts*. MA produces monthly economic forecasts, weekly economic commentaries, and analysis of economic indicators; (3) *Monetary Policy Insights (MPI)*. Directed by MA co-founder and former Federal Reserve Board Governor Laurence Meyer, MPI ties MA's economic forecasts to the prospective course of monetary policy and the resulting implications for fixed-income markets. MA's clients include leading financial service firms, nonfinancial corporations, key policymaking agencies of the U.S. government, as well as State and Foreign Government agencies. Additional information on Macroeconomic Advisers, LLC is available on the company's Web site, www.MacroAdvisers.com.

The ADP National Employment Report is a trademark and service mark of ADP of North America, Inc.
